"Special Projects Wish List"

As you will see here, many jobs may be done by volunteers that make *an immediate difference* in the Garden. Your ideas or advice about volunteering is welcomed. All materials could be provided by Nā Kamalei unless donated by volunteers. You can help us with the Punalu'u Discovery Garden and Lo'i by considering one of the following projects:

- Chain saw trees off of storage containers.
- Design and build a 10' bridge with rails over 3' drainage ditch so that wheelchair and easy access for kupuna is achieved mid-way in garden.
- Build a new roof 20X20 an outdoor halau for tables, food and studies in the gathering area.
- Cover mauka trellis with cut fencing and plant squash/ipu.
- Plant or harvest kalo (limited dates available).
- Plant flower cuttings in mauka garden.
- Plant 4-6 raised bed boxes with vegetables, herbs, native or other plants for children
- Arrange for donations of a 4' high crawl pipe.
- Cut and install lattice borders in front of garden "green belts" for safety.
- Build and install entry to orientation area with plants, gravel, stepping stones and benches.
- Create a barbeque/picnic area for families at rear of Garden.
- Measure and create a computer map, true to measurement, of Garden with improvements.
- Assist in updating the website with design for new pages
- Arrange for a donation of a container for garden supplies, wood, pipe and other construction leftovers for the Discovery Garden.
- Or visit and come up with something of your own!
